

It's all about
function.

Erik wears four MCPDrivers and a ThumbDriver.

According to the AMA Guides to the Evaluation of Permanent Impairment,
a loss of 5 partial digits can lead to 54 percent whole person impairment.

CUSTOM-DESIGNED FINGER PROSTHESES

Each device is custom designed to within millimeters of a patient's unique amputation and hand structure. We offer three custom-designed prostheses. The PIPDriver™, MCPDriver™, and ThumbDriver™.
