

THE NEXT GENERATION
OF NP TECHNOLOGY IS HERE

NAKED
PROSTHETICS

Introducing Naked Prosthetic Third Generation Technology

The latest generation of Naked Prosthetics devices integrates **advanced additive manufacturing** techniques, resulting in a prosthesis that is both more durable and highly customizable. These innovations not only **enhance durability** but also provide users with **increased personalization options**, fostering a stronger connection between the wearer and their prosthesis.

This update introduces a **refreshed color palette**, new surface **texture options**, and enhanced customization details, allowing for even greater user **personalization**.

Scan the QR code to discover NP's latest technology.

Contact our **Customer Experience Team (CX)** to direct you to the **Össur Upper Limb Solutions Team Member** in your region.
